

Dear International Students

In response to the multiple positive cases of COVID-19 among our students since April 21, we have suspended extracurricular activities (both on-campus and off-campus) for the time being.

The University will lift the suspension of extracurricular activities when the face-to-face classes is resumed throughout the university.

We continuously ask you to take measures against COVID-19 as below.

- Take social distance for 2 meters, put mask on your face, hand washing with sanitizer.
- Refrain from going out to crowded places and avoid the Three Cs.
- Refrain from traveling to prefectures that have been declared "State of Emergency" or "Priority Measures to Prevent Spread".
- Refrain from activities that involve dinners or overnight stays.
- Install the contact confirmation application (COCOA).
